When you contemplate the purchase of a book-case it is decidedly to your advantage to go where there is plenty of stock from which you can make a selection of such character as will harmonize agreeably with the room that you intend to furnish.

You can buy a sectional book-case that will appeal to you as strongly on account of its beauty as it does because of its utility.

That is the reason we carry such a large stock of Globe-Wernicke "Elastic" Book-Cases in different patterns —Standard — Mission — Colonial— Ideal.

## The Most Skillful Dentists in all San Francisco
### 1507 FILLMORE STREET

**OUR OPERATORS**

Our operators are all graduate licensed dentists of from 7 to 15 years of experience and masters of painless **dentistry.** They have been selected for their ability and their standing in the profession; possessing the highest awards and diplomas to be awarded in the United States.

We guarantee to give you the best dental work to be obtained in San Francisco or on the coast at **one-half** the fees charged by other high class dentists. Ask your neighbor. Call and send your friends to VAN VROOM, the Painless dentists at O'Farrell and Fillmore Sts., San Francisco.

Our office is open from 9 in the morning till 9 at night and from 9 to 2:30 Sundays, giving you an opportunity to call at your own convenience.

**Lady attendants in the office continuously.**

(Do not be mislead by unscrupulous persons who imitate our electrical display and advertising.) VAN VROOM.

**FILLINGS**---You have a tooth which is starting to decay. STOP! Have it filled TO-DAY. If you put it off the cavity only grows larger and larger. What then? You have a tooth which has lost its strength and vitality and you must go to the expense of a crown or have the tooth extracted. When we insert a filling in your tooth, we back that filling with a guarantee that it will stay ten years. If it is the fear of high prices that makes you hesitate, wait no longer as we charge only one half what other first class dentists do. VAN VROOM.

**CROWNS**

To crown a tooth properly, it is first necessary to have a good root to build on. Any tooth which is badly broken down may be repaired, replaced and made useful by the means of either a gold, porcelain, or enamel crown. Every tooth in your mouth is necessary for the proper mastication of your food and maintainance of your health. Therefore you should stop and consider, counting the money spent in the proper kind of dental work **as an investment** tending toward the preservation of your health and lengthening of your life. "VAN VROOM."

**TESTIMONIALS**

STEAMER PRESIDENT,
July 22nd, 1907.

Those crowns you put on my teeth when I was in San Francisco four years ago are still O. K. and I am coming in as soon as we get back to San Francisco and have a bridge made. When I tell friends of mine that you do work without pain they hardly believe me, but I am glad to say that I found your work to be without pain and perfect.

Yours,
G. S. FISHER.

**MRS. MOORE WRITES**

SAN FRANCISCO, May 1st, 1907.

DEAR DOCTOR:

Your Plate Specialist made me a set of teeth last year and I have had no trouble whatever with them. My health has improved wonderfully, as before they were made I was unable to eat any but soft foods or else punish my stomach with pieces of meat, etc., my teeth were so bad. But your specialist fixed me up so that I can now eat beefsteak and bite corn off the cob.

# STREET AND AVENUE GUIDE

OF THE

# CITY AND COUNTY OF SAN FRANCISCO

COMPILED FROM OFFICIAL SOURCES

## EXPLANATIONS

According to the method adopted in this city for numbering buildings, Market Street is the starting point for numbers all streets running from it in a northerly, southerly or westerly direction, and the water front for all streets running erefrom in a westerly or southwesterly direction. The numbers on all streets not commencing at Market Street or the ter front run in conformity with the numbers of the main streets running parallel with them, except in the case of a few reets which are numbered in an irregular manner.

On all streets between the water front and Central Avenue the even numbers are on the right-hand side, and the odd mbers on the left, starting from the point of beginning. Beyond Central Avenue most of the streets have been numbered a contrary manner. One hundred numbers, or as many thereof as are necessary, are allotted to each block bounded main streets; for instance, Montgomery Street commences at Market, and the main streets crossing as you proceed rth are Sutter, Bush, Pine, etc. Therefore any numbers between 1 and 100 will be found on the right or left hand side the street between Market and Sutter, between 100 and 200 from Sutter to Bush, between 200 and 300 from Bush to Pine.

In the streets which are numbered, a dash (——) indicates that the cross street does not extend to that side; (o), the reet borders on the bay, or public park, cemetery, etc., consequently there are no buildings on blocks thus designated; , the street is not opened through the block, or is interrupted in its course at that point by a public square, cemetery, .; (e), end of street.

The following named localities referred to in the Street Directory are situated as follows: Academy Tract, northwest le of Mission Street, between Silver and Ocean Avenues, Bernal Heights, west of Twenty-sixth Street, between San Bruno renue and Mission Street; City Land Association Tract, northwest of San Jose Avenue, near County Line; Clarendon eights, north of Twentieth Street, between Lincoln Avenue and San Miguel Rancho; College Homestead, east of Mission reet and north of Silver Avenue; Excelsior Homestead, southeast of Mission Street, near County Line; Fairmount Tract, uth of Thirtieth Street and west of Mission Street; Islais Creek, from west side of San Bruno Avenue, near Silver Avenue, rth and east to the bay; Laguna de la Merced, near the County Line and ocean, 6 miles southwest of City Hall; Lake ew, west of San Jose Avenue, from Ocean Avenue south to Railroad Homestead; Ocean View, west of San Jose Avenue ar County Line; Paul Tract, near junction of San Bruno and Railroad Avenues; Presidio Reservation, west of Lyon, d north of Pacific Avenue and Lake Street to the bay and ocean; Railroad Homestead, northwest of San Jose Avenue, ar County Line; Richmond District, west of First Avenue and north of Golden Gate Park to the Presidio Reservation d ocean; San Miguel, near the junction of San Jose and Ocean Avenues; Silver Terrace Tract, between San Bruno and ilroad Avenues, south to Silver Avenue; South San Francisco, south of Islais Creek and east of San Bruno Avenue to e County Line and the bay; Spring Valley Homestead, west of Mission Street, near Silver Avenue; Stanford Heights act, west of Bellevue Street, from Twenty-sixth south to Thirty-first Street; Sunnydale Tract, west of San Bruno Avenue, ar the County Line; Sunnyside, west of San Jose Avenue, near Ocean Avenue; Sunset District, south of Golden Gate rk from First Avenue west to the ocean; Sutro Heights, termination of Point Lobos Avenue, between Forty-eighth renue and the ocean; University Homestead, west of San Bruno Avenue, between Silver Avenue and Visitacion Valley; sitacion Valley, between San Bruno Avenue and Mission Street, near County Line; West End Homestead, north and uth side of County Line, near Mission Street; West End Tract, between San Jose Avenue and Mission Street near County
